

Persona 3

Petros

SHORT INFO

Non- formal
Education Trainer
28 years old
Greece

DESCRIPTION

Petros age 28, has studied IT, Physics and Math in Greece. He decided not to continue with an academic career since he wanted to be closer to teaching. Thus, he took part in a training of an educational institution dedicated to enabling people to hold STEAM workshops with kids. Now he is working as a facilitator in a non-formal educational institution that fosters educational activities of new Technologies and STEAM.

He believes that learning can be fun and that it should be combined with hands-on activities. He lets go of clutter and focuses on the essentials, thus on the principles that kids should understand.

Petros has built already robots for several years from many different materials and is increasingly interested in the maker movements. He is member of an online maker platform where he supports quite often the makers that seek for creative solutions in programming or IT in general. Last year he was traveling to Rome to take part in a big maker faire.
